Long Exam 1 - Part 1: Lecture

- Due Feb 11 at 12:15pm
- Points 100
- Questions 85
- Available Feb 11 at 10:30am - Feb 11 at 1:45pm 3 hours and 15 minutes
- Time Limit 90 Minutes

Instructions

Long Exam 1 - Part 1

Before you proceed, read all of the instructions and reminders posted on this page.

- This is a closed-notes exam. Access to any reference materials is not allowed.
- You are also not allowed to login to the server at this time.
- Do not converse with your classmates. Anyone caught doing so will be subject to disciplinary action and will automatically receive a final grade of 0.0.
- If you have any questions or concerns, inform your instructor directly.
- The timer for this exam is 90 minutes.
- You may proceed with Part 2 at the designated time only, 7:30PM. If you finish the exam earlier, kindly rest and wait patiently until Part 2 is active.

This quiz was locked Feb 11 at 1:45pm.

This attempt took 47 minutes.

Question 1
1 / 1 pts

Which of the following is best described by the following:

Computer hardware that are dedicated to a single customer's work

- Workstations
- Servers
- Data Center
- Networks

Question 2

1 / 1 pts

Which of the following philosophies of a sysadmin is best described by the following:

Gives users the benefit of greater predictability and consistency of service

- Automate as much as possible
- Delegate tasks if they're simple enough
- Know your users, know your business
- Plan ahead, but expect the unexpected

Question 3

1 / 1 pts

Which of the following philosophies of a sysadmin is best described by the following:

Informing people how to get help and defining the responsibilities of a sysadmin

- Automate as much as possible
- Delegate tasks if they're simple enough
- Document Everything
- Know your users, know your business

Incorrect

Question 4

0 / 1 pts

Is the following statement True or False?

In Evard's life cycle of a machine and its OS, a computer that is in the New state can be initialized to move to a Configured state, allowing for the computer to be operational

- True
- False

Incorrect

Question 5

0 / 1 pts

Which of the following is not a request that service desks are used for?

- Resolve services that are not working
- New employees or employee termination
- New projects (i.e. websites, databases, etc.)
- Upgrade services, software, and computer hardware

Incorrect

Question 6

0 / 1 pts

Is the following statement True or False?

Service Level Agreement or SLA typically categorizes problems by sensitivity and commits response times for each category

- True
- False

Incorrect

Question 7

0 / 1 pts

Which among the following details should not be included when a sysadmin communicates changes with the users, following the philosophy to communicate as much as possible?

- How much the change will cost
- Nature of the change
- When the change will take place
- Why the change is happening

Incorrect

Question 8

0 / 1 pts

Is the following statement True or False?

The philosophy of Communicate as much as possible means that to avoid confusion among users, use all possible communication channels to inform the users of the details of any changes or maintenance schedules.

- True
- False

Question 9
1 / 1 pts

Which of the following is not an issue that service desks are used for?

- Employee termination
- Printing issue
- Backup and restore requests
- User login not working

Question 10
1 / 1 pts

Which of the following philosophies of a sysadmin is best described by the following:

Best way to handle user-interruptions for minor issues that don't need escalation

- Automate as much as possible
- Delegate tasks if they're simple enough
- Know your users, know your business
- Security cannot be an afterthought

Question 11
1 / 1 pts

Which of the following responsibilities of a sysadmin is best described by the following:

Creating a copy of the system data and configuration on a remote site

- Planning

- Installation
- Backing up
- Performance Tuning

Question 12

1 / 1 pts

Is the following statement True or False?

The job of a sysadmin is to keep systems in a useful state for users

- True
- False

Question 13

1 / 1 pts

Which of the following philosophies of a sysadmin is best described by the following:

Sysadmins need to be aware of what is going on in an organization to be able to prepare for future work

- Delegate tasks if they're simple enough
- Document Everything
- Know your users, know your business
- Plan ahead, but expect the unexpected

Question 14

1 / 1 pts

Is the following statement True or False?

The philosophy of Document everything should be done while ensuring the use of document standards

- True
- False

Question 15

1 / 1 pts

Which of the following responsibilities of a sysadmin is best described by the following:

Setting up and configuring machines and services for the organization

- Installation
- Troubleshooting
- Backing up
- Performance Tuning

Question 16
1 / 1 pts

Is the following statement True or False?

Ethics is an important consideration for sysadmins, so much so that there are organizations who have made codes of ethics for sysadmins

- True
- False

Question 17
1 / 1 pts

Which of the following responsibilities of a sysadmin is best described by the following:

Continuously improving configurations and settings based on collected logs

- Planning
- Installation
- Monitoring
- Performance Tuning

Question 18
1 / 1 pts

Is the following statement True or False?

In Evard's life cycle of a machine and its OS, a computer that is in the Off state refers to a computer that is currently in a Turned Off Mode, which needs to be Powered On before use

- True

- False

Question 19

1 / 1 pts

Which of the following responsibilities of a sysadmin is best described by the following:

Methods and strategies that a company uses to build and maintain relationship between its users

- Planning
- Monitoring
- Troubleshooting
- Customer Relations

Incorrect

Question 20

0 / 1 pts

Is the following statement True or False?

In an organization, the management is always familiar with the computer life-cycle management process

- True
- False

Question 21

1 / 1 pts

Which of the following philosophies of a sysadmin is best described by the following:

Anticipate problems before they occur and make necessary preparations ahead of time to allow for quick responses should issues arise

- Automate as much as possible
- Document Everything
- Know your users, know your business
- Plan ahead, but expect the unexpected

Question 22

1 / 1 pts

Which of the following is not something that is documented by a sysadmin when following the philosophy of Document everything?

- Standards
- Policies
- Procedures
- Changes

Question 23
1 / 1 pts

Is the following statement True or False?

Service Level Agreement or SLA typically categorizes problems by severity and commits response times for each category

- True
- False

Question 24
1 / 1 pts

Is the following statement True or False?

When updating user workstations, the update information must be well-defines, communicated, and have a process for reverting in case of disastrous results

- True
- False

Incorrect

Question 25
0 / 1 pts

Which of the following philosophies of a sysadmin is best described by the following:

Helps the sysadmin determine which applications need to run at which times, when to perform and schedule backups, as well as technologies that can help solve business problems

- Automate as much as possible
- Document Everything
- Know your users, know your business

- Plan ahead, but expect the unexpected

Question 26

1 / 1 pts

Is the following statement True or False?

The philosophy of Automate as much as possible includes activities such as informing people how to get help

- True
- False

Question 27

1 / 1 pts

Which of the following philosophies of a sysadmin is best described by the following:

Being aware of potential sources and nature of threats, type and value of data on the system, as well as what is considered normal access to the system

- Delegate tasks if they're simple enough
- Know your users, know your business
- Security cannot be an afterthought
- Plan ahead, but expect the unexpected

Question 28

1 / 1 pts

Which of the following responsibilities of a sysadmin is best described by the following:

Solving tickets and concerns experienced by the users and services

- Monitoring
- Troubleshooting
- Backing up
- Customer Relations

Incorrect

Question 29

0 / 1 pts

Is the following statement True or False?

The job of a sysadmin only includes: planning, installation, monitoring, trouble-shooting, backing-up, performance tuning, and customer relations

- True
- False

Question 30
1 / 1 pts

Which of the following is best described by the following:

Place or location where machines with shared resources are kept

- Workstations
- Servers
- Data Center
- Networks

Question 31
1 / 1 pts

Which of the following philosophies of a sysadmin is best described by the following:

The best way to avoid confusion and panic among users

- Automate as much as possible
- Communicate as much as possible
- Know your users, know your business
- Plan ahead, but expect the unexpected

Incorrect

Question 32
0 / 1 pts

Is the following statement True or False?

In a large company, the sysadmin would typically be a jack-of-all-trades who manages multiple aspects of data center operations

- True

- False

Incorrect

Question 33

0 / 1 pts

Which of the following is not something that a sysadmin would need to know, following the philosophy of Know your users, know your business?

- Where the server room is located
- What applications need to run at what times
- When backups and maintenance can be scheduled
- What new technologies can possibly solve business problems

Question 34

1 / 1 pts

Is the following statement True or False?

In a small company, the sysadmin may be someone who manages one or more systems as a jack-of-all-trades

- True
- False

Question 35

1 / 1 pts

Which of the following responsibilities of a sysadmin is best described by the following:

Collecting information regarding the current performance and resource consumption of the computing resources

- Planning
- Monitoring
- Troubleshooting
- Performance Tuning

Question 36

1 / 1 pts

Is the following statement True or False?

In data centers, cooling using computer room air conditioning or CRAC uses chilled water to cool the environment

- True
- False

Question 37

1 / 1 pts

Is the following statement True or False?

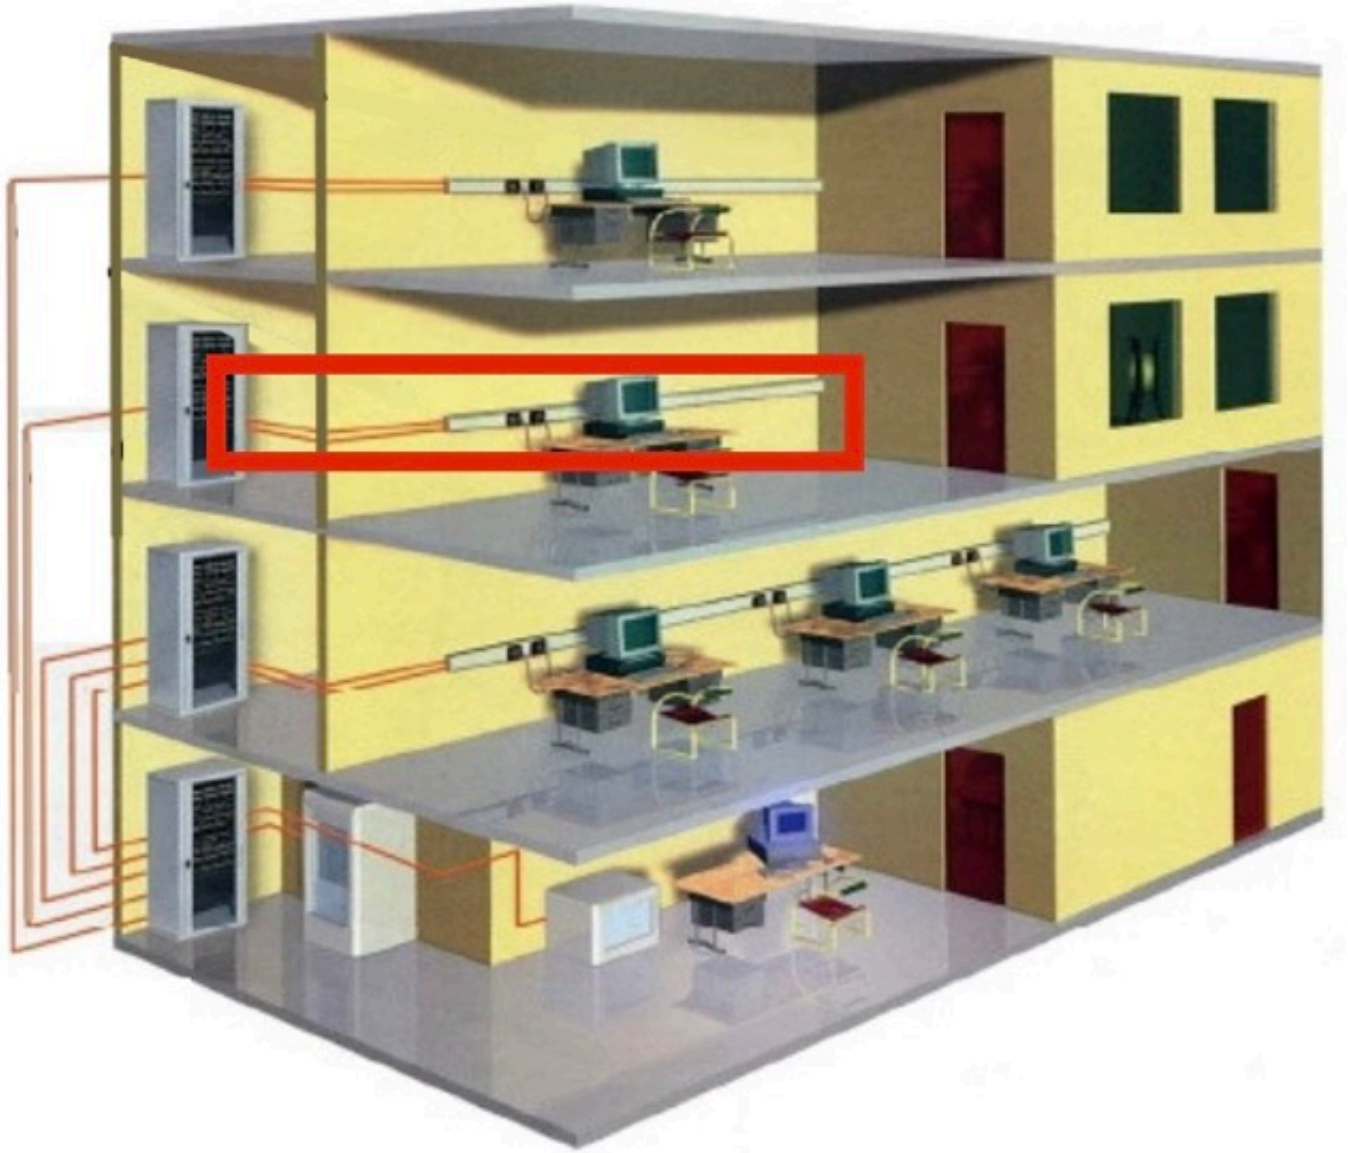
In data centers, the cooling considerations does not include rack placement since cooling capacity is computed by the heat given off by the equipment and people inside the room

- True
- False

Question 38

1 / 1 pts

Which of the following is being described in the TIA/EIA-568-B Structured Cabling System?



- Horizontal
- Backbone
- Entrance Facility
- Equipment Room

Incorrect

Question 39

0 / 1 pts

Is the following statement True or False?

In structured cabling subsystems, horizontal cabling would normally go around 100 meters from the work area to the telecommunications room

- True

- False

Question 40

1 / 1 pts

Is the following statement True or False?

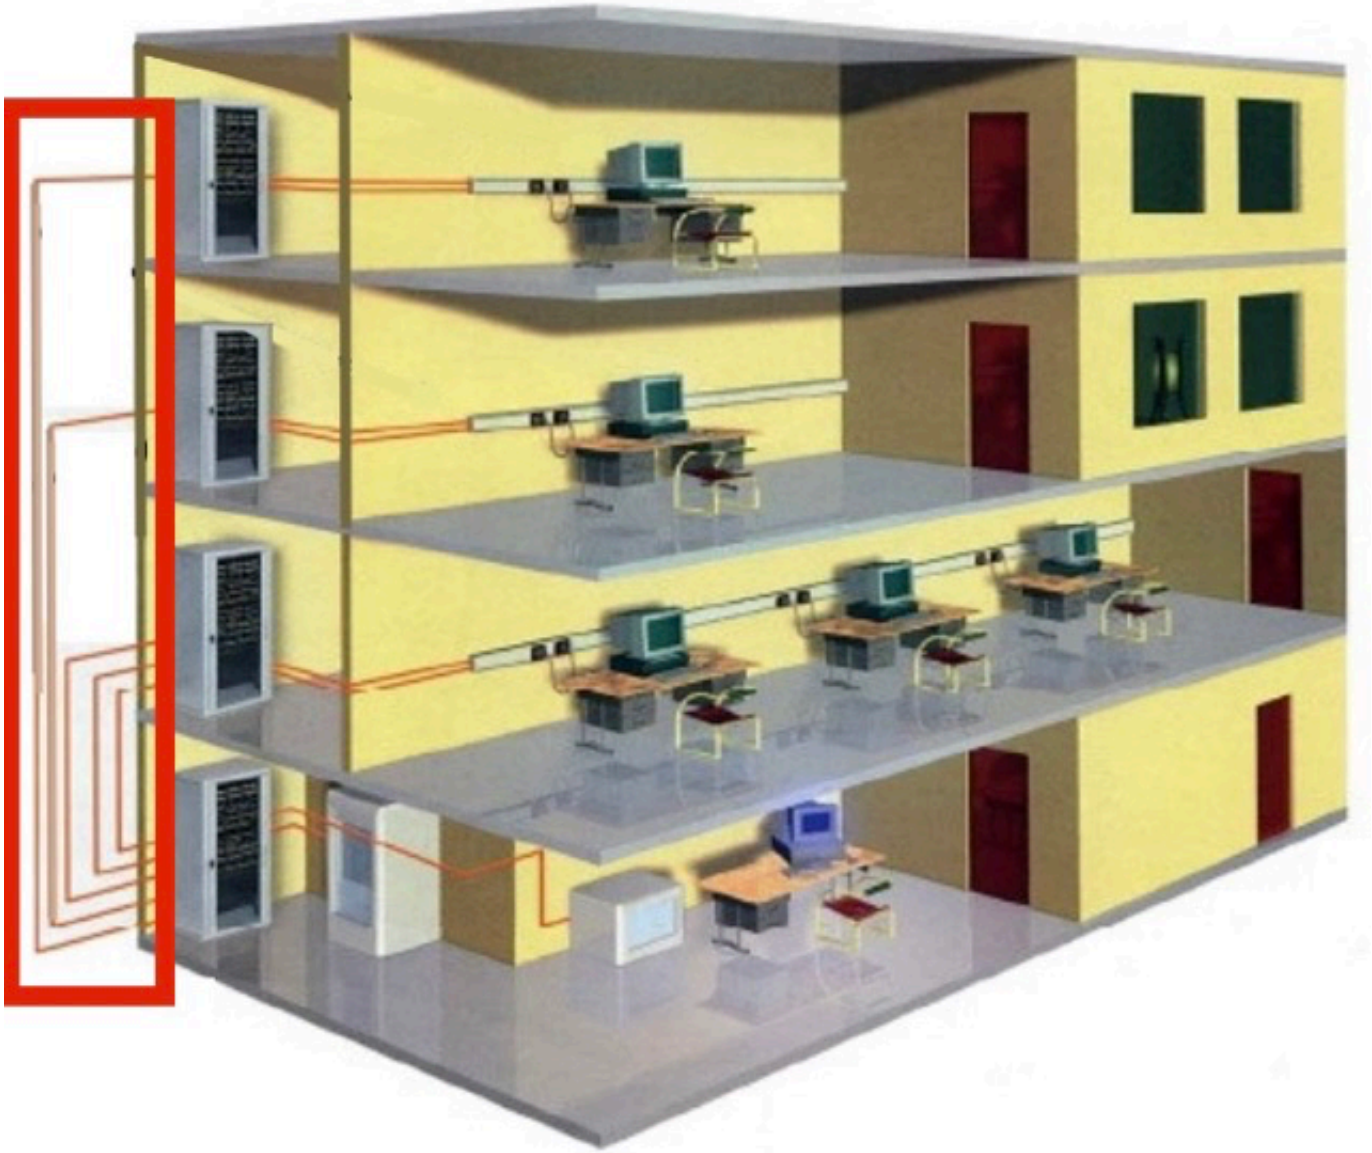
In data centers, equipment racks are built with steel frames that is designed to house servers, network equipment, cables, and air conditioning units

- True
- False

Question 41

1 / 1 pts

Which of the following is being described in the TIA/EIA-568-B Structured Cabling System?



- ○ Horizontal
- ○ Telcom Room
- • Backbone
- ○ Entrance Facility

Question 42

1 / 1 pts

Is the following statement True or False?

In structured cabling subsystems, a minimum of one telecommunications outlets should be provided for each work area

- ○ True
- • False

Question 43

1 / 1 pts

Is the following statement True or False?

In data centers, going beyond the rated power supply is not advisable as it could cause an overload

- True
- False

Question 44

1 / 1 pts

Which of the following is being described in the TIA/EIA-568-B Structured Cabling System?

- Work Area
- Telcom Room
- Entrance Facility
- Equipment Room

Question 45

1 / 1 pts

Which of the following is not part of a data center cabling infrastructure?

- Exit Facility
- Entrance Facility
- Horizontal Cabling
- Work Area

Question 46

1 / 1 pts

Is the following statement True or False?

In data centers, the cooling capacity of the air conditioner would typically use British Thermal Units or BTU as the metric of measurement

- True

- False

Question 47
1 / 1 pts

Is the following statement True or False?

In data centers, cooling using computer room air handler or CRAH uses chilled water to cool the environment

- True
- False

Question 48
1 / 1 pts

Is the following statement True or False?

In data centers, it is ideal to have temperatures around 21°F to 24°F

- True
- False

Question 49
1 / 1 pts

Is the following statement True or False?

In data centers, the cooling capacity of the air conditioner would typically use Celsius or °C as the metric of measurement

- True
- False

Question 50
1 / 1 pts

Is the following statement True or False?

In structured cabling subsystems, the entrance facilities contain the cables, network demarcation point(s), connecting hardware, protection devices, and other equipment that connect to the access

provider (AP) or private network cabling

- True
- False

Incorrect

Question 51

0 / 1 pts

Is the following statement True or False?

Compared to other server types, rack type servers can user standard components sizes

- True
- False

Question 52

1 / 1 pts

Is the following statement True or False?

Servers can enhance reliability by having hot swappable components such as network cables

- True
- False

Question 53

1 / 1 pts

Is the following statement True or False?

Servers can enhance reliability by having hot swappable components such as storage drives and network adapters

- True
- False

Question 54

1 / 1 pts

Is the following statement True or False?

Servers can enhance reliability by having multiple redundant power supplies

- True
- False

Incorrect

Question 55

0 / 1 pts

Is the following statement True or False?

Servers can enhance reliability by having a management console in the same network band and hardware with the host operating system

- True
- False

Question 56

1 / 1 pts

Is the following statement True or False?

Purchasing desktop hardware and loading it with server software may save you money in the long term

- True
- False

Question 57

1 / 1 pts

Is the following statement True or False?

A disadvantage of blade servers is that blades and components can only be sourced from the same manufacturer

- True
- False

Question 58

1 / 1 pts

Is the following statement True or False?

Servers that have high performance I/O allows for faster data transfer in components such as network and storage

- True
- False

Question 59
1 / 1 pts

Is the following statement True or False?

Servers that have no side access features would enable easier access to the servers on the front and back of the server rack. Having no side access would also allow server racks to be placed beside on another, reducing wasted space in a data center

- True
- False

Question 60
1 / 1 pts

Is the following statement True or False?

Server processors would normally have more cores than desktop processors

- True
- False

Question 61
1 / 1 pts

Is the following statement True or False?

Ubuntu is known as one of the most popular desktop or server distributions derived from Debian

- True
- False

Question 62
1 / 1 pts

Is the following statement True or False?

A process is a task that is loaded and tracked by the kernel

- True
- False

Question 63
1 / 1 pts

Is the following statement True or False?

When using the Linux command line, the typical format would include: a command, its options, then its arguments if any

- True
- False

Incorrect

Question 64
0 / 1 pts

Is the following statement True or False?

UNIX is originally an operating system before it became Linux

- True
- False

Question 65
1 / 1 pts

Is the following statement True or False?

Learning to use the command line interface is important because it provides more precise control, greater speed, and the ability to automate tasks

- True
- False

Incorrect

Question 66
0 / 1 pts

Is the following statement True or False?

Android is a Linux distribution that is usually deployed on mobile devices

- True
- False

Question 67

1 / 1 pts

Is the following statement True or False?

When using the Linux command line, the prompt is an indicator to the user to enter a command

- True
- False

Incorrect

Question 68

0 / 1 pts

Is the following statement True or False?

Linux distributions are operating systems that use the Linux kernel and its tools, applications, and package managers

- True
- False

Question 69

1 / 1 pts

Is the following statement True or False?

When using the Linux command line, pressing Tab will auto complete file and folder names

- True
- False

Question 70

1 / 1 pts

Is the following statement True or False?

Linux was developed by the community to be UNIX

- True
- False

Incorrect

Question 71

0 / 2 pts

Using the figure below, answer the following questions:

What command would you use to copy the file `citrus.txt` from the fruits directory to the `dir2_1` directory?

Note: The file already exists, you are user01, and you are in the `fruits` directory.

- cp citrus.txt /dir2/dir2_1/citrus.txt
- cp citrus.txt /home/dir2/dir2_1/citrus.txt
- cp citrus.txt /dir2_1/citrus.txt
- cp citrus.txt ~/dir2/dir2_1/citrus.txt

Incorrect

Question 72

0 / 2 pts

Using the figure below, answer the following questions:

What command would you use to move the file `users.list` from the `dir1_2` directory to the `dir1_1` directory?

Note: The file already exists and you are in the `dir1` directory.

- mv ~/dir1_2/users.list ~/dir1_1/users.list
- mv /dir1_2/users.list /dir1_1/users.list
- mv dir1_2/users.list dir1_1/users.list
- mv users.list dir1_1/users.list

Question 73

2 / 2 pts

Using the figure below, answer the following questions:

If you are currently in dir1_2, which command is valid to get to the xinetd.d directory?

- cd etc/xinetd.d
- cd ../../../../etc/xinetd.d
- cd ../../xinted.d
- cd ../../../etc/xinetd.d

Question 74

2 / 2 pts

Using the figure below, answer the following questions:

How do you create a directory called `dir3/dir3_1` in the `user01` directory?

Note: `dir3` is non-existent and you are currently in the `user01` directory.

- mkdir dir3/dir3_1
- mkdir –p /dir3/dir3_1
- mkdir –p dir3/dir3_1
- mkdir /user03/dir3/dir3_1

Question 75

2 / 2 pts

Using the figure below, answer the following questions:

If you want to remove all the files inside `dir1_1`, which command will you use?

Note: You are currently in `dir1`.

- rm dir1_1
- cd dir1_1; rm *.*
- cd dir1_1; rm *
- rm dir1/*

Question 76

2 / 2 pts

Using the figure below, answer the following questions:

What is the absolute path for the directory `fruits`?

- home/user01/fruits
- /home/user01/fruits
- /root/home/user01/fruits
- /Home/user01/fruits

Question 77

2 / 2 pts

Using the figure below, answer the following questions:

If you are currently in the `user01` directory and you enter the command `pwd`, what is the output of the command?

- user01
- /root/home/user01
- home/user01
- /home/user01

Question 78

2 / 2 pts

Using the figure below, answer the following questions:

If you are currently in `dir2` directory, what is the relative path to get directory `dir1`?

- ../dir1
- /home/user01/dir1
- User01/dir1
- /dir1

Incorrect

Question 79

0 / 2 pts

Using the figure below, answer the following questions:

If you are currently in the `user01` directory, which command can you use to list the directory in `dir2_1`?

- ls /home/user01/dir2/dir2_1
- ls /user01/dir2/dir2_1
- ls /dir2/dir2_1
- ls user01/dir2/dir2_1

Question 80

2 / 2 pts

Using the figure below, answer the following questions:

If you want to write the list of files with details in directory `dir2_1` to a text file, which command can you use?

Note: The text file will be saved in your current working directory which is `user01`.

- ls –l dir2/dir2_1 > lists_dir2_1
- ls –l dir2/dir2_1 > lists/dir2_1
- ls –l dir2/dir2_1 | lists_dir2_1
- ls –l dir2/dir2_1 | lists/dir2_1

Question 81

2 / 2 pts

Using the given output below, answer the following questions:

```
drwxr-xr-x  4 alice staff  4096 Apr  2 17:28 .
drwx------ 13 alice staff  4096 Apr  2 17:31 ..
lrwxrwxrwx  1 alice staff     5 Apr  2 17:27 data -> data1
drwxr-xr-x  2 alice staff  4096 Apr  2 17:13 data1
drwxr-xr-x  2 alice staff  4096 Apr  2 17:14 Desktop
-rwxrw----  1 alice staff    31 Apr  2 17:17 job
-rw-r--r--  1 alice staff 30115 Apr  2 17:16 job.log
-rw-rw-rw-  1 alice staff    14 Apr  2 17:17 myfile
-rw-r-----  2 alice staff   364 Apr  2 17:16 names
-rw-r-----  2 alice staff   364 Apr  2 17:16 names.txt
-rw-------  1 alice staff     9 Apr  2 17:25 .passwords
lrwxrwxrwx  1 alice staff     6 Apr  2 17:21 thefile -> myfile
```

How many directories are there?

4

Question 82

2 / 2 pts

Using the given output below, answer the following questions:

```
drwxr-xr-x  4 alice staff  4096 Apr  2 17:28 .
drwx------ 13 alice staff  4096 Apr  2 17:31 ..
lrwxrwxrwx  1 alice staff     5 Apr  2 17:27 data -> data1
drwxr-xr-x  2 alice staff  4096 Apr  2 17:13 data1
drwxr-xr-x  2 alice staff  4096 Apr  2 17:14 Desktop
-rwxrw----  1 alice staff    31 Apr  2 17:17 job
-rw-r--r--  1 alice staff 30115 Apr  2 17:16 job.log
-rw-rw-rw-  1 alice staff    14 Apr  2 17:17 myfile
-rw-r-----  2 alice staff   364 Apr  2 17:16 names
-rw-r-----  2 alice staff   364 Apr  2 17:16 names.txt
-rw-------  1 alice staff     9 Apr  2 17:25 .passwords
lrwxrwxrwx  1 alice staff     6 Apr  2 17:21 thefile -> myfile
```

Which command was used to produce this output?

- ls -l -a
- ls -a -d
- ls -l
- ls -l -d

Question 83

2 / 2 pts

Using the given output below, answer the following questions:

```
drwxr-xr-x  4 alice staff  4096 Apr  2 17:28 .
drwx------ 13 alice staff  4096 Apr  2 17:31 ..
lrwxrwxrwx  1 alice staff     5 Apr  2 17:27 data -> data1
drwxr-xr-x  2 alice staff  4096 Apr  2 17:13 data1
drwxr-xr-x  2 alice staff  4096 Apr  2 17:14 Desktop
-rwxrw----  1 alice staff    31 Apr  2 17:17 job
-rw-r--r--  1 alice staff 30115 Apr  2 17:16 job.log
-rw-rw-rw-  1 alice staff    14 Apr  2 17:17 myfile
-rw-r-----  2 alice staff   364 Apr  2 17:16 names
-rw-r-----  2 alice staff   364 Apr  2 17:16 names.txt
-rw-------  1 alice staff     9 Apr  2 17:25 .passwords
lrwxrwxrwx  1 alice staff     6 Apr  2 17:21 thefile -> myfile
```

How many soft links are there?

2

Question 84

2 / 2 pts

Using the given output below, answer the following questions:

```
drwxr-xr-x  4 alice staff  4096 Apr  2 17:28 .
drwx------ 13 alice staff  4096 Apr  2 17:31 ..
```

```
lrwxrwxrwx  1 alice staff     5 Apr  2 17:27 data -> data1
drwxr-xr-x  2 alice staff  4096 Apr  2 17:13 data1
drwxr-xr-x  2 alice staff  4096 Apr  2 17:14 Desktop
-rwxrw----  1 alice staff    31 Apr  2 17:17 job
-rw-r--r--  1 alice staff 30115 Apr  2 17:16 job.log
-rw-rw-rw-  1 alice staff    14 Apr  2 17:17 myfile
-rw-r-----  2 alice staff   364 Apr  2 17:16 names
-rw-r-----  2 alice staff   364 Apr  2 17:16 names.txt
-rw-------  1 alice staff     9 Apr  2 17:25 .passwords
lrwxrwxrwx  1 alice staff     6 Apr  2 17:21 thefile -> myfile
```

Which link references a directory?

data

Question 85

2 / 2 pts

Using the given output below, answer the following questions:

```
drwxr-xr-x  4 alice staff  4096 Apr  2 17:28 .
drwx------ 13 alice staff  4096 Apr  2 17:31 ..
lrwxrwxrwx  1 alice staff     5 Apr  2 17:27 data -> data1
drwxr-xr-x  2 alice staff  4096 Apr  2 17:13 data1
drwxr-xr-x  2 alice staff  4096 Apr  2 17:14 Desktop
-rwxrw----  1 alice staff    31 Apr  2 17:17 job
-rw-r--r--  1 alice staff 30115 Apr  2 17:16 job.log
-rw-rw-rw-  1 alice staff    14 Apr  2 17:17 myfile
-rw-r-----  2 alice staff   364 Apr  2 17:16 names
-rw-r-----  2 alice staff   364 Apr  2 17:16 names.txt
-rw-------  1 alice staff     9 Apr  2 17:25 .passwords
lrwxrwxrwx  1 alice staff     6 Apr  2 17:21 thefile -> myfile
```

Which file is a hidden file?

.passwords

Quiz Score: 78 out of 100
